

# Kindergarten Newsletter

## Term 2 2023

Welcome to Term Two. We have a busy and exciting term ahead. Classroom activities this term will involve the following:

### **English**

Writing remains an important focus and the students will write about their weekend on Mondays.

Daily news topics are attached to this newsletter.

### **Homework**

Home Reading: Short decodable sentences will begin to be sent home.

Handwriting homework sheets will also continue.

### **Mathematics**

In all aspects of Mathematics, emphasis is on conceptual understanding, language and practical activities that enable children to explore numbers and their relationships. We will look closely at whole number, time, position, data, length and combining and separating quantities (addition and subtraction).

### **Science: Material World**

This science topic will be linked to all areas of the curriculum. Within this topic, students will explore through hands-on activities, what things are made of in the school environment and the properties of the materials used to make them.

### **History**

We will continue to learn about personal and family histories.

### **PDHPE**

**PE:** All students are required to wear full sports uniform on Wednesdays. This term we will focus on fundamental movement skills.

**PDH:** We will focus on self regulating our emotions, bouncing back and learning about courage.

If you have any questions, please do not hesitate to contact your classroom teacher. We look forward to a great term.

Regards,

Kindergarten Teachers
