Dear Stage 2 Parents

**Re: Mathematics Groups**

We have recently been reviewing the composition of our mathematics groups in preparation for Semester Two. You will find that there will be some changes.

Changes have been made in consideration of demonstrated student need, research-informed effective grouping structures, and the creation of positive and productive learning environments.

Stage 2 will remain in four groups for mathematics, but from next term, we will have year-based grouping. Each year (Yr 3 and Yr 4) will have two groups comprised of students of mixed mathematical ability. Students who have demonstrated thorough understanding will be grouped together and students requiring support will be grouped together and be in different mixed-ability groups. This may also result in a change of teacher for your child.

Please be assured that students will be placed in groups to support their learning at the most appropriate instructional level for them, based on their demonstrated academic achievement and needs.

Kind regards

Kim Dudgeon  
(Principal)
